The Honorable John D. Dingell
United States House of Representatives
19855 West Outer Drive, Suite 103-E
Dearborn, MI 48124

Dear Representative Dingell,

On behalf of the Southeastern Michigan Association of Chiefs of Police, an organization representing members who are committed and dedicated to protecting the welfare of the citizens of the State of Michigan, I'm enclosing a Resolution to be presented to the Southeast Michigan Association Chiefs of Police at the October 4, 2006 meeting. I request you to urge the Chairman of the Federal Communications Commission (FCC) to commence a Notice of Inquiry to allow the public to review and comment on the Cyren Call Communications' proposal for a nationwide, state-of-the-art, wireless, broadband network for public safety.

The members of the Southeastern Association Chiefs of Police are very excited about the possibility of the proposed long-term, privately funded interoperable network that supports future technologies for public safety and believe the public safety community will reap benefit from a discussion on this subject. We very much appreciate the need to fully examine the implications of such a valiant plan, and we believe it is entirely appropriate to formally review this specific issue and allow all those interested to publicly comment, especially in light of our national public safety communications system shortcomings.

A similar letter of request has been sent to FCC Chairman Kevin J. Martin, who, very much like you, has been an untiring advocate for the public safety community and our needs. On behalf of the Southeast Michigan Association Chiefs of Police, I thank you in advance for your time and attention on this important matter and look forward to hearing from you soon.

Very sincerely,

Chief Theodore H. Quisenberry
